REASON FOR TODAY'S CALL:
 Wall mounted toilet with Geberit in-wall cistern making dripping sound. House built ~12 years ago.

DESCRIPTION OF WORK PERFORMED:
 ---June26: -I started by replacing the flushvalve gasket but during testing noticed the fillvalve would not shut off the flow of water when the tank was full. I will have to contact the Geberit rep and ask about availability of a replacement fillvalve. ---June29: I returned with a new FillValve, installed and tested. Toilet is functioning normally.
