REASON FOR TODAY'S CALL:

#1 Primary issue: kitchen sink drain clogged, backed up. Tried Drano, didn't work, will eventually drain after few hours. Clog is either at the trap or past the trap. It caused the dishwasher (which drains into the garburator) to back up and spill onto floor (I've manually drained the dishwasher now). Also both sides of the sink backup so garburator is clear as water travels between the sinks. I detached the garb pipe to check it. After reconnecting it there is now a slow drip leak near trap due to moving the plastic pipes around I guess. I don't know exactly where the water spilled out of the dishwasher so should it be pulled out to check for water damage beside/behind it? #2 Secondary issue: the bathroom tub faucet continuously drips, annoying. I've had the spout off a couple years ago, and scored the copper pipe a bit, I filed it back smooth at that time so I don't know if that is related. Not sure if the spout doesn't seal well (cheap gasket) or if it's a valve issue, etc

DESCRIPTION OF WORK PERFORMED:

-I used the PowerSpin drain snake to clear the kitchen sink drain blockage. I removed the garburator, installed a basket strainer in its place, and repiped the ABS drainage. Tested by filling and draining the sinks multiple times. -I removed the dishwasher kick plate and ran it through a quick fill & drain cycle with no signs of moisture detected underneath.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Clean drain using PowerSpin / Kitchen sink	\$159.00	\$159.00
1		Delete Garburator - ADD-ON PRICING	\$99.00	\$99.00
			SUBTOTAL:	\$258.00
			GST (5%):	\$12.90
			TOTAL:	\$270.90
