REASON FOR TODAY'S CALL:

water leaking and dripping on to the floor underneath the kitchen sink. we closed the valve to stop the leakage. The leakage appears to be from the top part where the connection is. This is limited to the cold water supply. There is also small droplet forming on the base of the faucet on the other side.

DESCRIPTION OF WORK PERFORMED:

I found water to be leaking from the Hot & Cold supply lines where they connect to the shut off valves under the sink. I cut the copper supply lines back and added braided supply extensions on these Hot & Cold lines. Tested and no other leaks detected.

| QTY. | CODE | DESCRIPTION | UNIT PRICE | PRICE |
|------|------|---|------------|----------|
| 1 | | Labour | \$109.00 | \$109.00 |
| 2 | | Braided Stainless Supply Line Extension | \$12.00 | \$24.00 |
