REASON FOR TODAY'S CALL:  
Ikea Lav sink leaking below sink.

DESCRIPTION OF WORK PERFORMED:  
The lavatory drain body was not fully secured to the sink. I removed the drain body, cleaned it, and reinstalled. Tested by filling and draining the sink multiple times.

TECHNICIAN RECOMMENDATIONS:  
\*The under edge of the lavatory sink is not fully flush so the drain body has a hard time sealing properly. If this leaks again in the future it may have to be siliconed.
