REASON FOR TODAY'S CALL:

i replaced the garburator Mar 28th and received notice Mar 30th that there was a leak noticed under the sink. (refer to invoice#8849)

DESCRIPTION OF WORK PERFORMED:

---Apr3: i made a visit to the unit and found that the leak was coming from between the undermount kitchen sink and the countertop, the silicone was peeling off. This leak only happens when water is run onto the lip of the sink. To repair this the area must be fully dry. Bhavana said it would be hard for her to ensure that this area does not get wet while in town and mentioned she would be leaving town shortly and would be happy to have me come in then. ---July10: Bhavana and I were finally able to coordinate a time to make the repair. I removed the old silicone and resealed.
