REASON FOR TODAY'S CALL:
 Our Insinkerator appears to have stopped working. It faintly buzzes when the switch is turned on, there is no grinding noise. The model is Incinerator Badger 5 Plus. I am uncertain of its age but it is at least 5 years old.

DESCRIPTION OF WORK PERFORMED:
 I was able to free up the garburator but during testing noticed the garburator was leaking. I replaced the garburator with a new Badger5 and tested by filling and draining the sink multiple times while running the garburator.
