REASON FOR TODAY'S CALL:

Hi! I would like a quote for two items please: -Garbage Disposal is broken (it is not clogged, but has stopped working - motor is dead. A new one needs to be installed, and the non-functioning one removed. The disposal was 14 years old so just had its day!) -Bathroom tub faucet: check & repair as needed. When the shower is turned on, there is still water that comes out of the tub faucet so assume the valve is not completely closing when switching to activate shower faucet head?

DESCRIPTION OF WORK PERFORMED:

-I replaced the garburator with a new Badger5 and tested by filling and draining the sink multiple times. -I replaced the tub spout diverter with a new Delta pull-down type diverter spout and tested.
