REASON FOR TODAY'S CALL:

Our kitchen garburator is leaking water, shower water flow is small, toilet is not flushing with enough power, and the tub drainage is too slow.

DESCRIPTION OF WORK PERFORMED:

-The garburator was leaking right through the bottom. I replaced the garburator with a new Badger5 and tested. -The kitchen sink drain was backing up, I used the PowerSpin drain snake to clean it and tested by filling and draining both sides of the sink multiple times while running the garburator. -I removed a pressure limiter from the shower head with low pressure and Nancy is happy with the increase. -The master tub drain was backing up, I used the PowerSpin drain snake through the tub and pulled out hair but then notice don't that when he lavatory sink was used water would ack up into the tub. I ran the snake though the lavatory drain and removed a large amount of hair. Tested by filling and draining the sink multiple times, and filling the tub 8" and draining. -Both toilets seem to be flushing normally.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Supply & Install 1/2HP Badger5 Garburator	\$319.00	\$319.00
2		PowerSpin - Drain Cleaning Add-On	\$50.00	\$100.00
