**REASON FOR TODAY'S CALL:**

The kitchen garburator is not working properly as it seems to be really stuck. There is power going to the garburator but the blades seem to be stuck. I have done the usual to see if there is something clogging from the drain as well as using an alan key at the bottom without any luck. There is water dripping from the bottom of the garburator at times.

**DESCRIPTION OF WORK PERFORMED:**

The garburator was leaking right through the bottom and had cracks in the housing. The owner decided to get rid of the garburator over replacement. I removed the garburator, installed a basket strainer in its place, and repiped the ABS drainage. Tested by filling and draining both sides of the sink multiple times.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Delete Garburator & Re-Pipe ABS Drainage	\$219.00	\$219.00
