REASON FOR TODAY'S CALL:  
 Replace fridge supply line.

DESCRIPTION OF WORK PERFORMED:  
 The instruction manual electrified that copper tubing NOT be used. The plastic tubing that came with the fridge was not long enough to reach. Char made a trip to Home Depot to grab a roll of 1/4" tubing while i carried out other scheduled jobs. I returned in the afternoon, installed the water filter and ran the new fridge line. I ran 3 liters of water through the fridge tap and turned the ice maker on.
