REASON FOR TODAY'S CALL:

-master bathroom slow drain(left sink) and leaking below -guest bathroom shower system not working? -low water pressure from both shower heads

DESCRIPTION OF WORK PERFORMED:

---Aug2: -I cleared both lavatory sink drains in the master bathroom and tested by filling and draining the sinks multiple times. There was a small leak coming from the ptrap on the left side sink that I was able to rectify by tightening the union joint. -Inspected the showers and found that the valve cartridges require replacement. I will contact Danze and order the necessary parts. ---Aug11: I returned with the 2 new mixing & pressure balance cartridges and installed. Both showers are now functioning normally. The master shower does seem to have slightly less water pressure than the guest shower but I inspected the inlets to the shower head and hand spray head and found nothing obstructing the flow.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Labour (Aug8)	\$109.00	\$109.00
1		Install 2 New Danze Mixing & Pressure Balance Cartridges	\$199.00	\$199.00
