REASON FOR TODAY'S CALL:

Hi Darren, Our tenants at this property need the washing machine drain cleared. A new machine was installed and there's still a leak. Handy Appliances let me know we need to send a plumber to clear the drain.

DESCRIPTION OF WORK PERFORMED:

I ran the PowerSpin drain snake through the laundry drain twice and during testing could hear the water still backing up in the drain. I ran the snake through 4 more times while the machine was draining to help flush any debris and then tested by running the machine through 5 fill & drain cycles on the largest load setting. The drain showed no signs of backing up.
