REASON FOR TODAY'S CALL:

After using a shower, I started noticing a water spots on the carpet floor near the door to the washroom. They occurred 4-5 times in the last couple of months. Just wanted to check to make sure that its not pipes leaking.

DESCRIPTION OF WORK PERFORMED:

I inspected the drain and it seems to be secure. I removed the shower valve trim and could see no signs of moisture in the wall around the valve or from the shower above. The grouting is starting to erode and I believe this is where the water is leaking through. I've suggested contacting a tile contractor to have the grouting replaced with new.
