REASON FOR TODAY'S CALL:

My garbage disposal is not working. It was running fine this morning but then I heard a grinding noise (not sure what fell in there) and now I can hear the motor running but nothing is happening. I immediately turned it off.

DESCRIPTION OF WORK PERFORMED:

There was a dime lodged in the garburator grinding chamber. I tried to remove the dime but it found its way down through the garburator and flushed through the drain. Tested by filling and draining the sink while running the garburator.
