REASON FOR TODAY'S CALL:

I was away for two months and when I came home, my garburator stops working, it just hums. I knew it's stuck, but there is no hex key slot at the bottom, so I read the manual and used a wooden broom to try to move the turntable from above. I still can not get the turntable and the blade to move and worst of all, now water starts to leak from the garburator. The model of my garburator is Waste King 1001 and it is only 3 years old. I have never used it to grind any food waste. I only run it for a few seconds every time I wash the sink?

DESCRIPTION OF WORK PERFORMED:

I was able to unjam the garburator and tested by filling and draining the sink multiple times while running the garburator.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Labour	\$109.00	\$109.00
SUBTOTAL:				\$109.00
GST (5%):				\$5.45
TOTAL:				\$114.45
