REASON FOR TODAY'S CALL:

-There appears to be a broken plug in the bathroom sink. Broken is defined as the plug cannot be lifted when pulled on the lever. -The other item was a cover for the wand on the kitchen faucet. It turns out the faucet is not a moen, so they could not send me a part. There appears to be no name on the faucet. The wand still works but the nobs are exposed (not as aesthetically pretty). *Running toilet

DESCRIPTION OF WORK PERFORMED:

-The mechanical lav drain lever arm was broken. I replaced the mechanical drain assembly and tested by filling and draining the sink multiple times. -I installed a new kitchen faucet pull out spray head. -I replaced the toilet fillvalve and supply line.
