**REASON FOR TODAY'S CALL:**

Hi there, Our toilet tank needs some fixing. Please refer to the attached picture. The red circle indicates the seal (blue item) on the flush valve that has come off. You can put it back into place but the water from every flush will shift it out of place. Also, the area in the green circle (the ballcock?) spits out water where the pivot point is to the float rod, so it should be replaced too. Thanks! Soo Wei

**DESCRIPTION OF WORK PERFORMED:**

I replaced the fillvalve, flushvalve gasket, and supply line. Tested and in good working order.
