**REASON FOR TODAY'S CALL:**

Our sink has a minor clog that makes it slow to drain and can back up slowly if you leave the water running. We tried using Draino twice but it had no effect. It has been like this ever since September 1 when we moved in.

**DESCRIPTION OF WORK PERFORMED:**

I used the PowerSpin drain snake to clea the kitchen sink drain. Tested by filling and draining the sink multiple times.

**TECHNICIAN RECOMMENDATIONS:**

The drainage under the sink looks to be run in a strange way. It is possible that there used to be a garburator and whoever removed it didn't quite install the new drainage correctly. Specifically, there is a ?P? trap with no vent. This is known as and ?S? trap.
