REASON FOR TODAY'S CALL:

My problem is my kitchen faucet. I've had low pressure for a long time now and the building manager tells me it is not a problem of the building but of my faucet. Recently my faucet seems to ?jump? when I opwn it and water leaks out the bottom. Not good! Hoping for some help.

DESCRIPTION OF WORK PERFORMED:

-I replaced 2 orings where the spout of the faucet connects to the faucet base and reattached the spout. -The pressure decrease was caused by the aerator being full of debris. I replaced the aerator and tested.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Discount Labour	\$99.00	\$99.00
