REASON FOR TODAY'S CALL:

Garburator legend series 1001 not working .. no apparent jammed food .. not able to turn manually, just hissing sound when press switch, reset button is ok. Like to have estimate of replacement - unit is probably same age as building 9 years vs costs of repair?

DESCRIPTION OF WORK PERFORMED:

I was able to free up the garburator and tested by filling and draining the sink multiple times while running the garburator. Nothing was pulled out, whatever caused it to seize up was pushed through and flushed away.
