**REASON FOR TODAY'S CALL:**

Hello - Shower output recently developed low pressure. Removed the shower head unit but pressure right out of wall is also low. Pressure out of main tub taps is fine, perhaps a faulty or clogged cartridge? This is for a single handle Moen fixture. (See attached photo) Cheers

**DESCRIPTION OF WORK PERFORMED:**

I removed a small piece of plastic from the connection between the shower arm and the spray hose adaptor. Tested and pressure is back to normal.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
