REASON FOR TODAY'S CALL:
Tub draining slowly and kitchen sink backing up.

DESCRIPTION OF WORK PERFORMED:
-I used the PowerSpin drain snake to clean the tub drain. Tested by filling the tub 8? and draining. -The tenant mentioned that the kitchen sink drain backed up while she had the washing machine going. What we figured out was that it wasn't the washing machine but rather the dishwasher that caused the sink to back up. There was food in the garburator and the tenants were not familiar with how it operates. This food was causing the sink to drain slowly and the dishwasher drains through the garburator so it caused water to rise in the sink while the dishwasher drained. I turned the garburator on to clear the food waste and showed the tenant how to use it. Tested by filling and draining the sink.

| QTY. | CODE | DESCRIPTION | UNIT PRICE | PRICE |
|-----------|------|--|------------|----------|
| 1 | | Clean drain using PowerSpin / Tub/Shower | \$139.00 | \$139.00 |
