REASON FOR TODAY'S CALL:
Instant hot water tank fitting leaking

DESCRIPTION OF WORK PERFORMED:
The leak was coming from the press fitting on top of the instant hot water unit. The copper that pushes into it was rough, likely from someone using pliers on it. I disconnected the copper, used sand cloth to smooth it out, and reinstalled. The leaking has stopped and there were no other signs of leaking from the unit or it's connections.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
