REASON FOR TODAY'S CALL:  
lavatory sink and tub not draining well. buz#0604

DESCRIPTION OF WORK PERFORMED:  
 ?Master Bathroom: -I removed some hair from the top of the lavatory drain. I ran the PowerSpin drain snake through the lavatory sink and tub drain but they were clear. Tested by filling and draining the sink multiple times, and filling the tub 8? and draining. -While onsite Annie mentioned she noticed a small amount of moisture under the bathroom sink. I found a small leak coming from the cold supply line. I replaced this supply line and tested again. No other leaks detected. ?Guest Bathroom: -The drain stopper was not functioning. I removed a small amount of hair from the top of the lavatory drain and reinstalled it. Tested and in good working order.
