REASON FOR TODAY'S CALL:

Kitchen sink is backed up (maybe due to garburator). Kitchen faucet leaks when handle is turned to cold water. Crack in garburating device is resulting in a slow leak. Shower handle leaks when turned to shower, but not when turned to tub. --Side note: The earliest I can be home for an appointment is 3:45pm

DESCRIPTION OF WORK PERFORMED:

-I replaced the garburator with a new Waste King 1001 and used the PowerSpin drain snake to clear the kitchen sink drain blockage. Tested by filling and draining both sides of the sink multiple times while running the garburator. -The kitchen faucet and tub/shower valve are made by Danze. I've suggested contacting Danze's customer support as they will likely mail out replacement parts free of charge.
