REASON FOR TODAY'S CALL:

A few days ago my garbage disposal stopped mid-grind and made a very strong smoky smell which has continued to linger. I flip the switch and nothing happens. I've hit the reset button and it started up for a second and then died again. The garbage disposal is approximately 12 years old with average use. I think it reached the end of its useful life and needs to be replaced. A picture of the garbage disposal is below.

DESCRIPTION OF WORK PERFORMED:

I replaced the garburator with a new Badger5 and tested by filling and draining the sink multiple times while running the garburator.
