REASON FOR TODAY'S CALL:
 Kitchen faucet leaking. Bathroom faucet leaking.

DESCRIPTION OF WORK PERFORMED:
 The cartridges in both faucets were leaking. I replaced the cartridge in the lavatory faucet(K35A), as well as the cartridge in the kitchen faucet(K35A). During testing of the kitchen faucet I noticed that when the spout is turned side to side it also turns the Hot & Cold Supply Lines under the sink(connected to the faucet). I informed the tenant that it would be a good idea to not over extend the faucet from left to right as it could potentially add stress to the supply lines.
