**REASON FOR TODAY'S CALL:**

Hi there, I went away on vacation and now my garburator won't turn on. It makes a quiet humming noise, but then switches off.

**DESCRIPTION OF WORK PERFORMED:**

The garburator seized up to rust buildup in the grinding chamber. I was able to free up the garburator and tested by filling and draining the sink while running the garburator.

**TECHNICIAN RECOMMENDATIONS:**

I have recommended making sure that the garburator is run more frequently to mitigate the chances of rust buildup seizing it up again.
