REASON FOR TODAY'S CALL:

Kitchen faucet leaks slightly at the point where it swings from one side of the sink to the other after I have been away for a week or more. After a week of use the leaking stops. It is the original faucet (Kohler 1993 model) and I want it repaired not replaced.

DESCRIPTION OF WORK PERFORMED:

I contacted Kohler and ordered replacement parts for the kitchen faucet. When the parts arrived I made a trip to the apartment, removed the spout, and reinstalled with all new orings and seals supplied by Kohler. Tested and no other leaks detected.
