REASON FOR TODAY'S CALL:

Hello, the sink in my bathroom was draining very slowly so I used liquid plumber last weekend and since then there is a terrible smell coming from the sink. It is draining better, but still not quite that well. I have tried baking soda, vinegar and hot water, but the smell will not go away. It's rather toxic smelling, so I'm not sure what it stuck in there! Is this something that you are able to help with? *keys and parking pass with concierge.

DESCRIPTION OF WORK PERFORMED:

I used the PowerSpin drain snake to clear hair from the lavatory sink drain and tested by filling and draining the sink multiple time. I also cleaned out the overflow as far down as I could reach.
