REASON FOR TODAY'S CALL:

Kitchen Sink: Leak from kitchen sink, top of handle as well as leak that's pooling below the garburator. Water has been shut off and not in use. *Aerator in lav sink fell out.

DESCRIPTION OF WORK PERFORMED:

?Feb2: -The garburator was leaking through the bottom and could not be repaired. I replaced the garburator with a new Waste King 1001 and tested by filling and draining the sink multiple times while running the garburator. -I replaced the broken lavatory faucet aerator. -The kitchen faucet wasn't leaking while I was onsite but that doesn't mean it doesn't leak on occasion, and the way it was leaking has the potential to cause water damage. I tightened the nut that secures the cartridge in place(location of leak) and will contact Delta to ask for a replacement under warranty. ?March20: I returned with a new faucet supplied by Delta, installed and tested.

QTY.	CODE	DESCRIPTION	UNIT PRICE	PRICE
1		Supply & Install 1/2HP Waste King 1001 Garburator	\$279.00	\$279.00
