REASON FOR TODAY'S CALL:

garbage disposal, not working again, i did what we discussed last time this happened but it is not fixing the problem. not sure if it needs to be replaced or another course of action needs to be taken.

DESCRIPTION OF WORK PERFORMED:

I was able to get the garburator working again by removing a hard piece of plastic and some steal wool that was jammed in the grinding chamber. Tested by filling and draining the sink multiple times while running the garburator.
