REASON FOR TODAY'S CALL:

We have a clog in our bathroom sink. It happened rather suddenly because it seemed like it was draining fine and the next minute it wouldn't drain at all. It produced a lot of disgusting black flakes/sediment coming out of the pipe back into our sink. It kind of looks like mold but not sure. We tried draino, baking soda and hot water, a plunger, and a snake and it's not any better. It basically won't drain.

DESCRIPTION OF WORK PERFORMED:

-I used the PowerSpin drain snake to clean the drain and tested by filling and draining the sink multiple times.
