**REASON FOR TODAY'S CALL:**
Garbage disposal is leaking. It was replaced new about 5 years ago. The plumber had a difficult time installing it (getting it lined up to fit properly). You can see from the photo there is a large crack in the casing - which didn't happen during installation, but at some point much later on. It is a Legend Series - Model 1001. It is rarely used and we're interested in removing it entirely and reconnecting with just a drain pipe.

**DESCRIPTION OF WORK PERFORMED:**
I removed the garburator, installed a basket strainer in it?s place, and repiped the ABS drainage. Tested by filling and draining both sides of the sink multiple times.
