REASON FOR TODAY'S CALL:

For a long time the drain in the kitchen sink has been very very slow to drain and often the sink gets full of water as no water is draining. And we will be replacing our island countertop, sink and faucet soon and would like to see if the above problem can get resolved before the install. And at that time, we'll also need a plumber to help install the new faucet.

DESCRIPTION OF WORK PERFORMED:

I used the PowerSpin drain snake to clean the kitchen sink drain and tested by filling and draining both sides of the sink.
