REASON FOR TODAY'S CALL:

Master bathroom: -Shower head attachment leaking. -Please advise if it is possible to install shower head mount to wall so that attachment can be used.

DESCRIPTION OF WORK PERFORMED:

The leaking was coming from the connection between the body spray hose and where it attaches to the faucet assembly. This connection seemed to be a little loose. I loosened it off, cleaned the washer inside, and reassembled. Tested and no other leaks detected.

TECHNICIAN RECOMMENDATIONS:

This free standing tub wasn't really meant for a stand up shower. There was an access door to the guest shower but it was drywalled over. If the tenant really wants a shower in the master it is possible but would require a curtain that fully encloses the tub, and a shower bar to be installed on the tile wall.
