REASON FOR TODAY'S CALL:
Toilet has very slow drip under tank. Not sure what the source is. This happened previously and a friend tightened something, and it solved it for a year. Perhaps new interior gear would help, or new gaskets??

DESCRIPTION OF WORK PERFORMED:
-Apr18: I made a site visit and collectively it was decided that replacement of the toilet was preferred over repairing the existing. -May3: I installed the customer supplied toilet and disposed of the old.
