PHONE 604-669-8097		EMAIL godinthomas@hotmail.com	

REASON FOR TODAY'S CALL:  
 2 problems - i have a leak under my kitchen sink (looks like 2 parts joined together came undone) and i have a toto toilet that has a valve problem. I have a new valve replacement kit.

DESCRIPTION OF WORK PERFORMED:  
 -Kitchen: The slipjoint nut connected to the left sink basket strainer was loose. I tightened this nut and tested by filling and draining the sink. -Ensuite Bathroom: The Toilet Flapper was warped. I replaced this flapper with one that Thomas provided. The water level in the tank continued to drain out slowly even with the new flapper. I replaced the flushvalve assembly with one that Thomas provided and tested again. The toilet now seems to be in good working order.
