REASON FOR TODAY'S CALL:
 tenants report they have found leak under the lavatory sink.

DESCRIPTION OF WORK PERFORMED:
 There was a small leak coming from the connection between the lavatory faucet supply line and the shut off valve it attaches too. I tightened this nut and asked the tenant to keep a Tupperware container under the sink for a couple weeks and to check it periodically to ensure there is no other leaking. I removed the tub drain stopper and showed Min how to reinstall it.
